MAINTENANCE DIRECTOR

The Director of Maintenance is directly responsible to the Director of Facilities. He is charged with the responsibility of directing the activities of persons working in the maintenance department. The primary function of the Director of Maintenance is to see that the buildings and grounds of the Summers County School System are maintained in a safe, economical, and efficient manner. He is also responsible for carrying out the major maintenance programs planned for the summer months and for the construction of new school buildings or additions to buildings when authorized to do so by the Board of Education.

The Director of Maintenance is a salaried employee who is employed for 240 days.
