Changed Code from VIII-M-3 to V-C-5

ASSIGNED BUS STOPS FOR STUDENTS

Bus drivers are given the authority and responsibility of transporting students to school and returning them to their designated pick-up stop. This responsibility is jeopardized when students get on and off the bus at stops other than their designated bus stop. This makes it impossible to track a student who does not arrive home at the expected time.

Therefore, it shall be the policy of the Board that drivers not pickup any student who is not regularly enrolled to ride a particular bus. Also, no driver shall pick-up or discharge any student at any stop other than the student's regularly designated bus stop. The only exception will be when the student brings two notes signed by the parent. The notes shall state the reason and shall be given to the student's principal. The principal shall sign one copy and give it to the bus driver. The second copy shall be kept on file in the principal's office.

Pre-K students will not be discharged from the bus unless a parent/guardian, or another person authorized in writing by the parent/guardian, is at the bus stop to receive the child.
