

SUMMERS COUNTY BOARD OF EDUCATION POLICY

ADOPTED: June 14, 1984

CODE: VI-A-3

REFERENCE: Board Minutes

PAGE: 1 of 1

HOMEWORK

Believing that education goes beyond the school day and that students need the responsibility of school work done on their own, the Summers County Board of Education and county administration will encourage teachers to give homework to their students using the following guidelines:

- (1) Homework should be given regularly and teachers should expect students to complete out-of-school assignments full and correctly;
- (2) The work should be of the type that the student can do by him/herself or with only limited assistance;
- (3) The amount of homework should be commensurate with the students age/grade level and must not eliminate the student's social life.

Each school will develop its own policy concerning the specifics of homework and using these guidelines.
