PUBLIC SCHOOL CURRICULA

It shall be the policy of the Summers County Board of Education that the core curricula used in all public schools of the county will be the Content Standards as adopted by the West Virginia Board of Education. These will be implemented as received from the state.

In addition to the core curricula, teachers, under the supervision of the principal and county administration, will be responsible to add to and supplement their curricula to meet the individual needs and interests of the students; changing trends in the community, state, and world; objectives of the State-County Testing Program; additional concepts and objectives presented in adopted basal textbooks; and so on to provide the fullest possible education to each child.
