Pregnancy of Students

The regulations of the State Board of Education and County Board of Education on the absence of women employees from duty pending and following childbirth shall apply to pregnant married or unmarried girls enrolled in, or otherwise eligible to attend, the public county schools.

A pregnant student must have a signed statement from her doctor stating that she is not physically able to attend school or that in his/her opinion she should not be in school for health reasons. After receipt of such statement, homebound instruction shall be provided.
